ANNA WIMAN TRANSLATION & COMMUNICATION

I started my translation company, Anna Wiman Translation & Communication, in early 2013, and I've enjoyed working full-time as a freelance translator since then, translating content online for a number of major and sometimes global brands (fashion, household appliances, personal hygiene, textiles, furniture & interior decoration, children's products), in-house magazines, press releases, general marketing, law texts and some technical texts.

I've also built a small and stable network of a few colleagues who are also freelance translators – sometimes we work together in order to meet the needs of our clients. In reality, that often means forming a team where one translates and the other one proofreads. Please contact me if you are looking for sort of team solution for your project.

I was born to Swedish parents in Geldern, North Rhein-Westfalen, Germany, returning to Sweden when I was eight years old. I was bi-lingual before I started preschool. Spending my childhood in two different cultures has definitely given me comprehensive intercultural understanding and it has helped me in my work with translating from German. I grew up in a language-loving freelance translator home - my parents have been freelance translators for over 20 years, translating mostly technical texts and law. My three greatest interests have always been languages, travel and books. By the age of 23, I had visited 30 countries in Europe and overseas. Translation has been a very natural career choice, combined with my BA in Media and Communication with emphasis on Public Relations from Linneaus University in Växjö, Sweden. Fun fact: German being the only language I have in common with my partner, this is the language we speak at home. My English and German are on the same advanced level. I have a feeling I won't be the last bi-lingual person in my family...

→ More on my German language training:

I completed advanced German courses on three different universities between 2007-2008; Humboldt Universität zu Berlin, Universität Passau and Universität Leuphana Lüneburg. On March 24th 2010, I completed a comprehensive language test in advanced German, *Deutsche Sprachprüfung für den Hochschulzugang Ausländischer Studienbewerber* (DSH), at the Leuphana Universität Lüneburg in Germany. Passing the test is required for foreigners to attend German universities – my score gives me the right to study on Master's level. The DSH-diploma is a proof of advanced language proficiency.

WORKING EXPERIENCE AND INTERNSHIPS

→ Freelance journalist and writer, New Kosova Report (Prishtina) & Think Young (Brussels)

Based in Prishtina, Kosovo. March 2010 – December 2010

I launched my own column for the online newspaper New Kosova Report ("Young Kosovo – behind the scenes") in March 2010, covering a range of subjects focusing on the young population of Kosovo, see www.newkosovareport.com/Anna-Wiman/. I also published articles and chronicles for the organization Think Young (www.thinkyoung.eu) in Brussels (lobbying for young decision-making in Europe).

→ Public Relations-assistent within a NATO Advisory Team

Prishtina, Kosovo. Summer 2009

The NATO Advisory Team assisted the build-up of the Ministry of the Security Force in the Republic of Kosovo (<http://www.mksf-ks.org/?page=2,1>), at the time only an independent nation for about 1,5 years. I worked with public relations among 12 international advisors (all covering different areas such as law, procurement, personnel) from Western NATO-countries. I assisted my mentor, the Public Relations Advisor, Gerdur Bjork Kjaernsted from Iceland, the first week or two, then received my own supervised tasks for about two weeks and finally took over her position completely when her mission was over about a month into my internship. It was an intense but giving period, is the least one could say. I assisted in daily media routines such as press conferences and my independent tasks included distributing relevant media information to the team as well as mentor and guide the local Kosovar personnel in everything public relations. During my time, I also created a PR-calendar for press events 2009/2010 and planned, led and realized an intense two-day visit by a dozen international journalists to the security force's training facilities among others, coordinated with the United States NATO Mission HQ in Brussels.
